# 2017 State Level Emergency Risk Risk Assessment

A collaborative effort to build a NSW which is safer and more resilient to natural disasters

## 12 hazards
- Bush fire
- Tsunami
- Flood
- Earthquake
- East Coast Low
- Landslide
- Infrastructure failure
- Storm
- Human Infectious Disease Outbreak
- Coastal erosion
- Heatwave
- Biosecurity

## 10 priorities
- Enhancing land use planning
- Conducting major training exercises
- Improving data and risk modelling
- Realigning funding to disaster resilience
- Adapting to climate change impacts
- Increasing coordinated community engagement
- Strengthening local emergency plans
- Making public warnings consistent
- Boosting infrastructure resilience
- Embedding business continuity planning

---

12 hazards that pose a risk to NSW communities have been identified in the State Level Emergency Risk Assessment.

10 priorities have been identified to help build a more disaster resilient NSW.
Now is the time to Get Ready NSW

Don’t leave it to the last minute when a disaster is at your door. Take care of your family and property by planning ahead. Simply follow these 5 easy steps and get ready!

1. Know your risk
   Think about the area you live in and the types of disasters that could affect you.

2. Plan now for what you will do
   Sit down and talk with your family and plan for what you will do if a disaster affects your area.

3. Get your home ready
   Prepare your home by doing general home maintenance and checking your insurance.

4. Be aware
   Find out how to prepare and what to do if there is a disaster in your area.

5. Look out for each other
   Share information with your family, friends, neighbours and those who may need assistance.
