

## State Rescue Board of NSW - General Land Rescue and Vertical Rescue Accredited Units by Emergency Management Region

The State Rescue Board’s principal function is to ensure the maintenance of efficient and effective rescue services throughout the State. The Board is generally responsible for the development and promulgation of rescue policy, the setting, promulgation and monitoring of standards of training, and for providing advice on equipment levels for all rescue units in the State. The Board is also responsible for recommending to the Minister the accreditation of units to undertake those forms of rescue for which the Board has decided that accreditation is required.

Under section 54 of the *State Emergency and Rescue Management Act 1989*, accreditation of rescue units requires the endorsement of the Minister for Emergency Services. This page is progressively updated as applications for accreditation and applications for deregistration are endorsed by the Minister.
